

# LXT Learn Procedure

with LXR Receiver

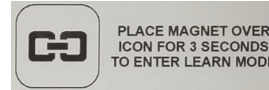

**1** **Transmitter:** Put batteries in and power up  
**Receiver - LXR (Docking):** Power up

**2** **Transmitter:** If link symbol is not visible, proceed to next step.  
*Note: Disable WiFi to prevent interference*

**3** **Transmitter:** Hold power switch in the off position for 5 seconds  
**Receiver - LXR (Docking):** Place magnetic foot of transmitter over center "chain link" symbol for three (3) seconds

**4** **Transmitter:** Magnifying glass indicates the transmitter is searching for a receiver  
**Receiver - LXR (Docking):** Antenna LED will alternate between red and green when searching for a transmitter

**5** **Transmitter:** Link symbol indicates a solid chain link when learn is successful  
**Receiver - LXR (Docking):** Antenna LED will flash green rapidly when learn is successful

**6** LED Locations:
